

Counting Machine Flowchart Introduction
1, Match the Scratch blocks to the flow chart by drawing lines to them

2, Build this in Scratch and test it

3, Does it count up from 0? If it does your code is correct. If it doesn't have a look at the flow chart order to see if you can spot what is wrong. Remember all computer scientists make mistakes and need to debug there work.

4, Discuss with your partner what is happening inside the repeat 12 loop can you explain what is happening inside the variable?
