From (Your name)

Message

Place first packet card here

Message Split 1/1, 1/2, 2/2, 1/3, 2/3, 3/3

Time to Live

To

From (Your name)

Message

Place second packet card here if you need it

Message Split 1/1, 1/2, 2/2, 1/3, 2/3, 3/3

Time to Live

To

From (Your name)

Message

Place third packet card here if you need it

Message Split 1/1, 1/2, 2/2, 1/3, 2/3, 3/3

Time to Live

3 If you have split your message into more than one packet circle the number of the packet. If you have two packets the first will be 1/2 and the second 2/2.

4 Roll a dice and add 3 to the number. This is the time to live. Put it in the box. For example, if I rolled a 3 then I add 3 and put total 6 in the time to live box

5 Hand the completed packet to someone you can reach without leaving your seat.

If a packet comes to you reduce the time to live by 1 and pass it on to the next child/router. If it has a time to live of 0 hand it in to your teacher
