

**Name:**

**Class:**

**Learning Intention:**

**I am learning to code a counting machine**

<b>Success Criteria: Main path bold</b>	<b>How did I do?</b>	
<b>I can make a machine that counts in 1s</b>		
<b>I can duplicate my code and make it run from a different key</b>		
I can make a machine that counts in numbers other than 1		
<b>I can make a machine that counts more than 10 times</b>		
I can make a machine that counts faster		
<b>I can choose a start number of 5</b>		
I can choose a start number other than 5		
<b>I can count into a list</b>		
I can count down in 2s		
I can count down in other numbers		
<b>I can create a missing number in my list</b>		
I can create 2 missing numbers		
I can get the user to input key information		
<b>I can code a pause after each question</b>		
I can code my question within an automatic quiz (Very High Extension)		
<b>Challenge</b>		
I can create a game to help my friends mental maths skills		

☺ I can do it

☹ Did it a bit but didn't fully get it

☹ Didn't get it at all
