

**Name:**

**Class:**

**Learning Intention:**

**I am learning to generalise (adapt an idea that works to do something similar) using a selection block inside a forever loop**

<b>Success Criteria:</b>	<b>How did I do?</b>	
I can create the move and steer block		
I created lots of blocks of colour on the stage		
I tried one of the examples		
I created successful code using looks blocks		
I created successful code using pen blocks		
I created successful code using motion blocks		
I created successful code using sound blocks (if allowed)		
I used single selection blocks		
I used if else selection blocks		
<b>Extension</b>		
I created successful code using variables		
I can think of ways I could use some of these ideas in other programs (generalise)		
<b>Challenge</b> I can debug (spot and fix) any errors		

☺ I can do it

☹ Did it a bit but didn't fully get it

☹ Didn't get it at all
