

Name:

Class:

Learning Intention:

I am learning to code a music machine in Scratch that uses sequence and repetition.

Success Criteria:

How did I do?

I can draw my own buttons

I can create a sequence of notes and drums

I can create a sequence that includes an imported sound

I can change the type of note using the instrument block

I can repeat code using a repeat x times loop

I can code a button to play looped notes

I can evaluate musical creations for bugs

I can spot and fix (debug) errors in my code

Extension

I can code multiple sequences alongside each other

I can add code to stop all sounds

I can code a volume control

I can code a flashing background

I can code my own musical instrument

Challenge

I can think of other things to code with the when clicked scratch block

wk1

wk2

wk3

😊 I can do it

😐 Did it a bit but didn't fully get it

😞 Didn't get it at all
