Lottie measures how tall she is. She then measures how high her heels are. Finally she measures how tall her hat is. When she wears her high heels and hat how tall is she?

Jason receives some money from his mum, money from dad and money from gran. He only spends half his money. How much has he got left?

Rahman builds a wall.

He knows how many

centimetres high it is

and how many

centimetres wide.

Calculate the area of

his wall.

Maisie's mum gives her some money. She spends half of it before giving quarter of the remaining money away. How much money has she got left?
