

# Crumble Playground Programmable Light (sparkle)

code-it.co.uk

code-it.co.uk

## Hints

Programmable lights can be very bright. You can reduce this with a slider or dial or by covering the light with a translucent cover such a piece of white paper.

See the multi programmable lights card for how to connect more than one.

## Useful Code Blocks

Click here to change the colour

The first sparkle is called 0

turn sparkle 0 off

set all sparkles to [pink]

Set the colour using red green and blue 0 to 255

set sparkle 0 to 255 255 0

You can use a variable in place of the number

wait 1 seconds

program start

Waits determine how long your sparkle light stays on or off for

Loops can be very useful as well
