

Motors can be reversed by swapping the + or negative — wires or by using programming blocks

Motor connected to motor 2

Motors need the batteries turned on to work

wait 1 seconds

A variable could be used in place of the power percentage

motor 1 REVERSE at 75 %

Create these blocks by left clicking on the motor 1 stop block above

motor 1 FORWARD at 75 %

motor 1 STOP

Up to two motors can be controlled with the crumble.

### Useful Code Blocks

### Hints

Try a lower percentage power to start with as the Crumble Playgrounds can temporarily cut out when changing from 100% forward to 100% backwards.

50% is a good starting point.
