

Programming sequences start at the top and go to the bottom.

Programming Sequence

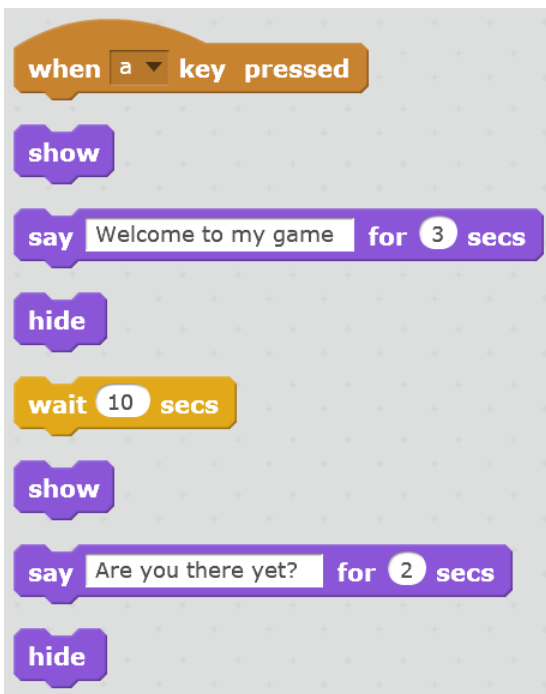

If you are planning a sequence just write the sequence in a list like this.

When a key pressed
 Show sprite
 Say welcome to my game for 3 seconds
 Hide sprite
 Wait 10 seconds
 Show sprite
 Say Are you there yet? for 2 seconds
 Hide sprite

Debugging Sequences

Sequences can be in the wrong order. You can separate them out and click on them one block at a time to find out where the bug is.

Sequence

A set of instructions that follow each other

Everyday Sequences

- The order that you brush your teeth.
- The order that you make a sandwich.
- The order that you get dressed in the morning.
- The directions that you take to get to school.
