Hampshire Primary Computing Conference 2019

Miles Berry is our 2019 keynote speaker. Miles is a principal lecturer and the subject leader for Computing Education at the University of Roehampton. Miles has contributed to a wide range of national computing related projects including developing the national curriculum computing programmes of study, Rising Stars; Switched on Computing, Barefoot Computing, Code Club and BBC Bitesize resources.

Andrew Bush is an ex primary school teacher who is developing new resources for the National Centre for Computing Education.

Matt Warne leads computing at a school near Worcester and will be leading an interactive session with the Sphero.

Nic Hughes will be leading a hands on session using the micro: bits.

Joe Sandell will be leading a session on how his school has used the Crumble after being inspired at last years conference.

It was very helpful in helping me to determine next steps for my school. A really good opportunity to try new things, explore ideas, reflect on issues and share thoughts with colleagues.
Primary Conference Delegate

When: Thursday 27th June
Where: Winchester
For Hampshire maintained schools use

It is my pleasure to co-organise and present at the Hampshire Primary Computing conference.

This year I am looking forward to sharing useful education and computing research that makes a difference in the classroom.
